CONTENTS

- A - Lamp shade
- B - Adjustable swan-neck
- C - 2 meter cord with foot-switch

Please read these instructions carefully and retain them for future reference to ensure that the lamp is used correctly. For your own safety, please study each step of this instruction manual first. &tradition is not responsible for any faults or damages caused by not following these instructions correctly. Do not modify this lamp in any way.

INSTALLATION SUGGESTIONS

The Bellevue AJ7 floor lamp can be used as a stand alone lighting source or in combination with the other lamps in the Bellevue series. Place it next to a sofa, armchair, credenza or bedside table. The lamp can also be used in combination with the rest of the &tradition collection. Visit our website for more inspiration:

SAFETY PRECAUTIONS

- Dispose of plastic bag from packaging and do not allow children to play with it.
- The lamp is only intended for interior use.
- Lamp shade gets hot after prolonged use.
- Do not place the cable in reach of small children or anywhere there is a risk of falling over it.

CLEANING INSTRUCTIONS

The Bellevue lamp is made from solid brass and lacquered aluminum. The brass used is uncoated and will therefore develop a unique and beautiful patina over time. To ensure the lamp will look beautiful for years to come, please only use a dry soft cloth to clean the lamp. Never use aggressive detergents or abrasive cleaning agents as this will damage the surface of the lamp.

STEP 1

The lamp accepts standard screw mount bulbs:

Maximum 60 W.
E27 bulb.

STEP 2

Use the flexible swan-neck to set the shade at a desired angle. It is best to set the angle before turning the lamp on as the shade gets hot when the lamp is in use for longer periods of time.

220-240V - 50 Hz
