

# Do it yourself.

Here is a crazy idea: A set of shelves as personal as a pasta bolognese. There are as many ways to customize them as there are people in the world.

Make it as playful, personal or perfect as you like. Share your #pythagorasplay masterpiece and inspire others!

## As smart as a shelf can get

Nobody likes a smarty-pants, but everyone loves a smart shelf. With pre-drilled holes, there should be no problem for you to adjust my length from 78 to 59 centimeters. Pinewood made from good looking Nordic sustainable forestry.

100% recycled metal and pinewood from sustainable forestry

**Placement inspiration:**

**/// A world in between.**

**Slow Production for a fast world**

We care about the outdoors as much as the indoors. Therefore, we developed a work method that we call Slow Production. It involves honest manufacturing, good working conditions, recycled materials and a strict no aircraft freight. And no, we'd never lay our hands on endangered forests.

Some would say it's too much of an effort. We wouldn't have it any other way. Frankly, we hope that Slow Production will evolve to be the industry norm.

Our design will outlive us all – and so should mother nature.
