APOLLO 39, 59 & 79

With a composition that alludes to mass and weight, Apollo is a lamp made from a solid piece of machine-turned brass or aluminium. Its conical shapes balance end-on-end like spinning gyros, emphasising a dynamic, downward, thrusting force. A lamp with a real heightened material presence, with its surfaces left deliberately raw. The Apollo collection comes in a range of colours that can be used singularly or hanging in various heights as a group constellation.

BROBERG & RIDDERSTRÅLE

Mats Broberg and Johan Ridderstråle are creative collaborators based in Stockholm, Sweden, working in a mixed architecture and design practice. They strive to add an emotional value to design, and often draw inspiration from everyday life. Their creative process combines a rational approach with a dash of wit, and a clash between past and present.

PHOLC

Founded in 2015 by Maja and Samuel Norburg, Pholc is a young lighting brand with a quietly exacting philosophy. Not just another Scandinavian design company, Pholc is a distinctly Swedish atelier, evident in our desire to constantly look forward. Through our collaborations with the brightest design talent, we create versatile lighting solutions that are expressive, relevant, sophisticated, and informed.
