

TWO MAN ASSEMBLY

Tools:

Drill or hammer drill. It depends on the wall.

- Screwdriver. It is better to use a power tool that will speed up the workflow, it is recommended to have a screwdriver to adjust SCARPI-4 fitting. To adjust it with care not to destroy adjustment bolt with electric screw driver.
- Level measuring.
- Roulette-metter.
- Hammer.
- Pencil or marker

Installation work:

- *mount metal plate hanger on the wall where preferred to hang the TV unit.*

- *Drill the marked holes in the wall and attach the strips (pic)*
- *Hang the cabinet on the metal plate hanger. To avoid dropping the cabinet two men needed.*

(2 persons)

- *Use a screwdriver to adjust the cabinet on the wall.*
