

THE FEATHER ICON GETS A NEW COLOUR

We are excited to announce the release of the Eos medium in light rose. Inspired by the colour of cherry blossoms and flamingos, the iconic feather lamp has a new member in its collection. The Eos in light rose adds a soothing allure and cute charm to any interior. It can be mixed and matched with different sizes and colours from the Eos lampshade family and the rest of the UIMAGE range to obtain creative and decorative clusters.

All of UIMAGE's designs are flexible, and the Eos in light rose is no different. Made from goose feathers, it can be used as a floor, table or ceiling light and can be combined with a large variety of UIMAGE's accessories: Champagne family, Willow family, Tripod family or as a pendant hanging from Rosette, Cannonball or Cord Set.

"The new Eos in light rose is enhancing the natural softness and lightness of the feathers. A hint of rose creates a sweet innocence to your space, perfect for the living room or children's room."
 – Soren Ravn Christensen, founder and Chief Creative Developer at UIMAGE.

We take the story of Scandinavian design further than ever before by combining aesthetics, simplicity and functionality and infusing it with thoughtful craftsmanship and environmental care. Our

designs are deeply rooted in the diverse urban landscape and raw nature surrounding our home in the heart of Copenhagen, Denmark. Having begun our journey in November 2008, we are celebrating our 10th anniversary this year by constantly growing and expanding the conventions around contemporary design.
