

NUTTY

It's a bit nutty

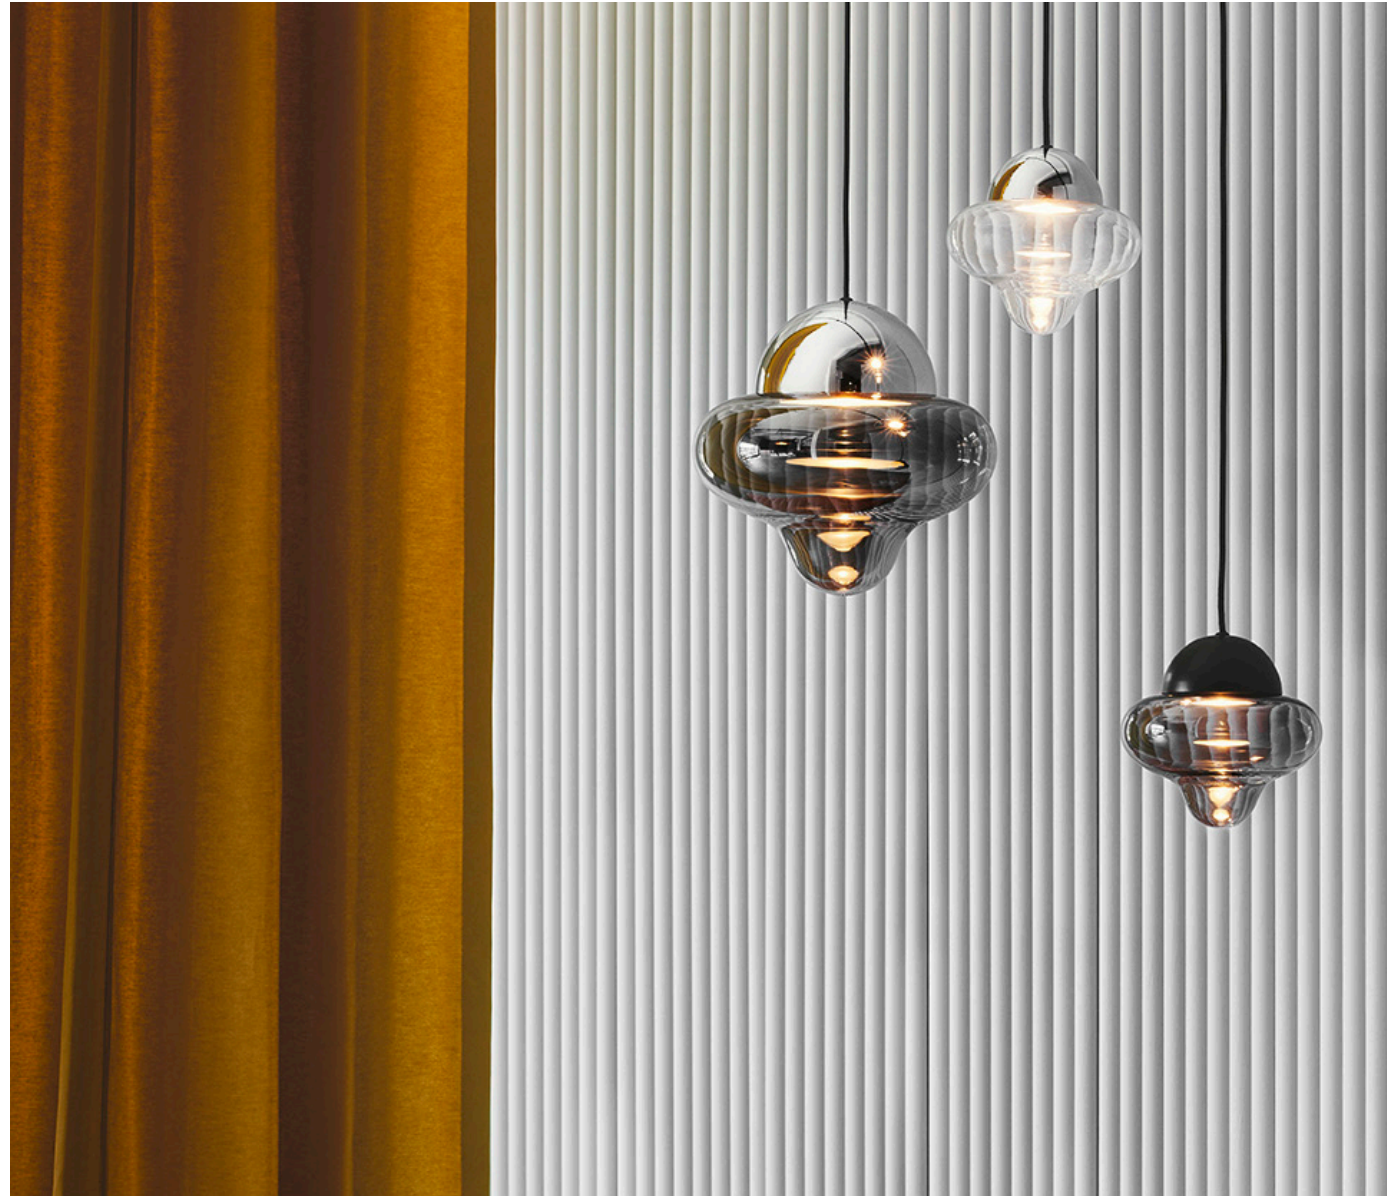

BRING NATURE INDOOR

Nutty is inspired by nature and the fine nuts of the Oaktree - but still with the playful and unique style of Design by Us. The LED-light is indirect and soft like sunlight through the treetops which gives a very pleasant atmosphere and light around the lamp.

Danish Design has a tradition for using the shapes of nature's own wonders - we decided to use the acorn as inspiration for this new lamp. It is a little nutty, and that is why we call this new pendant Nutty.

The pendant collection is available in two sizes, Nutty & Nutty XL. You can mix and match 9 different colour combinations in each size.
