## Care Instructions

Warm Nordic's furniture is high quality when it comes to design and functionality.

With correct maintenance, the furniture will remain in good condition for many years to come. We advise that you follow the accompanying guidelines to care for and clean the furniture. This ensures extended life time.

We have chosen materials which age beautifully, but please be aware that all materials undergo changes to their nature over time when exposed to light, dust and use.

### General advice

Please be aware that differences in colouration can occur when sofa is exposed to direct sunlight. Whole or partial coverage with blankets and cushions for long periods of time can cause colour differences

Avoid placing the sofa close to solid fuel stoves and radiators.

Do not stand on the sofa or sit on the back or armrest.

### Textiles

The textiles used on Warm Nordic's products come from leading textile-manufacturers and are all of high quality. Many of the textiles are made of pure wool or of wool-content quality. Wool is a strong material, the elastic and dirt-repellent properties of which make it relatively easy to maintain.

Regular cleaning: Upholstered furniture should be vacuumed often with a soft mouthpiece designed for furniture. Always remove stains and liquids immediately to avoid these penetrating the material and leaving marks.

Furniture can be treated with Guardian Textile Protection to great advantage, substantially minimising the risk of stains.

Stain removal: Stains and spilled liquids should be removed immediately by dabbing with kitchen tissue or a dry, lint-free cloth. Stains which are not greasy can be removed by gently dabbing with a clean, lint-free cloth or sponge wrung out in clean, warm water. The stain should be agitated from the edge working towards the middle with clean, lint-free cloths. Do not rub, as this may damage the textile. The damp spot can be easily dried with a hairdryer on a low setting. Many stains require special treatment.

For difficult stains, we recommend the use of Guardian Textile Cleaner.

There is no one detergent which can remove all types of stain. Specific stains are not covered by this guide, and it may therefore be necessary to seek the aid of your furniture retailer.
