

Amp Collection

Designed by Simon Legald for Normann Copenhagen

A Hi-Fi Inspired Range of Lamps

The Danish designer Simon Legald has designed a sophisticated range of lamps called Amp for Normann Copenhagen. The range consists of one table lamp, two pendant lamps, two chandeliers and one wall lamp.

Amp has a nostalgic and at the same time, contemporary feel.

The idea for the lamp's shape came when the designer was restoring an old 60's radio at home. While searching for spare parts for the radio, he was captivated by the glow that emits from the tube amplifier. The simple oval shape and the glow of the bulb is an obvious reference to this, just as the name Amp refers to the English term; tube amplifier.

The designer has visually highlighted the essential details, such as the way the shade rests on the socket. By combining two materials, an exciting contrast between the light glass and the solid, heavy marble or zinc is created. The decorative bulb emits a stunning glow through the either gold, white or smoke colored glass lampshades. The lamp is available with a brass socket, which gives a refined look, or a base and socket in an impactful black marble or a striking jade green, emphasizing the natural colorful elegance of the material.

A socket in zinc alloy is also available with the Matt / White variant.

A By-product of the Existing Production

A desire to reuse and rethink how we can utilize by-products from our production has consequently led to the introduction of the Amp Lamp Matt. Amp is usually spraypainted to give the glass pendants the desired color, but during this process uneven paint can occur. The spraypainted lamps we consider not to live up to our high standards are consequently glass bead blasted to make them matt and give them an even surface once again. Amp Lamp Matt is thus a sustainable solution on how to breathe new life into a by-product of the existing production.

This variant is available in both a small and a large pendant. The matt, frosted glass in combination with the zinc socket creates a sophisticated and elegant pendant that will hang beautifully over the kitchen table, office desk or several combined in an intriguing arrangement in a commercial residence.

The Amp Lamps come with matching textile cord, and dimmer switches for the table lamp. The shades can easily be removed when changing bulbs.

Amp Lamp small
H: 17 x Ø14 cm

Amp Lamp large
H: 26 x Ø11,2 cm

Amp Chandelier small
H: 32,5 x Ø62,5 cm

Amp Chandelier large
