### BULLET WALL LAMP

The Bullet collection is characterized by a closed tubular metal lampshade with a smooth carved opening. The opening is covered in a curved piece of opal glass, filtering the light from the light source inside.

The collection comprises a chandelier, a pendant, and a wall lamp - all made in bronze plated iron and opal glass, creating unique and sculptural lighting experiences inspired by Art Deco.

The chandelier has six adjustable arms positioned in a flexible hexagon setting and mounted on a rifled centerpiece, adding a shimmering and reflective quality to the lamp. Two of the chandelier arms are turned upwards to ensure lighting towards the ceiling, while the other lampshades are facing downwards to brighten up the space below the chandelier.

The linear design of the pendant is sleek and is an ode to the industrial lamps of 1960s kitchens. The lampshade has two carved openings, filtering the light through white opal glass to the space below the lamp. The tubular lampshade is mounted to a sleek metal wall cup and placed directly to the wall in a vertical position.
