

## TROIS WALL LAMP

Inspired by the vibrant 80s neon aesthetics, the Trois Wall Lamp masterfully merges wall artwork with the illuminance of a wall lamp. Made from an acrylic square lampshade with a semi-transparent taupe nuance, three radiant tubes create a graphic pattern behind the screen. Trois Wall Lamp is equipped with an integrated LED light that offers a remarkable 25,000 hours of illumination. Contrary to the typical cool luminescence associated with neon, Trois is meticulously designed to radiate a soft, warm glow at 2400 Kelvin, enveloping spaces in a cozy ambience. The lamp comes with a sleek black cord and can be connected directly to a wall outlet or by cable outside the lamp. Designed by Kristian Sofus Hansen & Tommy Hyldahl.
