THE MOON FLOOR LAMP

The Moon is a minimalistic floor lamp constructed from geometric shapes, where each component is perfectly balanced to one another.

The lamp has two light sources placed as compositional fix points along an oxidized brass arm. A large circular lampshade hangs from the arm as a floating reflector in the space.

The brushed brass lampshade is illuminated on both sides, creating a warm and soft lighting. The Moon lamp is mounted to a cylindrical base of unpolished grey marble, stabilizing the structure.
